# YOGA FOUNDATIONS

## Hot Vinyasa Yoga

The aim of this heated class is to **detoxify your body and deepen your flexibility.** Our classes are great for hot yoga beginners, with infrared panels heating our studio to a balmy, but moderate 26-30 degrees. Expect a gentle to moderate flow designed to detoxify your lymphatic system and internal organs while also boosting your metabolism and cardiovascular activity. Leave this class feeling **accomplished and purified.**

## Yoga Stretch

The aim of this 30 minute class is to **stretch and alleviate tension** before your day. This active yin class is the perfect pace for a busy mind and overworked body with poses being held for longer periods of time. Practicing a yin based class in the morning can help mitigate distracting pains during the day. Leave this class feeling **loose and unrestricted.**

## Yoga Foundations

Come back to the very foundations that form the basis and stability of your practice with a class that leaves space for you to breathe, explore and rest (how delightful!). Each class will allocate 15 minutes to pranayama, 15 minutes of "practice" which breaks down asana and an extended savasana. Even just the thought of this feels so nourishing.

# PILATES

# MEDITATION

## Mat Pilates

The aim of Mat Pilates is to **strengthen the core and stabilising muscles in the body**. Myall Mat Pilates is a condensed and powerful workout suitable for all levels of practice. Our instructors take you through 30 minutes of exercises performed on the floor using your own body weight and gravity for resistance. Throughout the class you will challenge your body by putting it in unstable positions, moving your limbs, and training the targeted muscle groups to support the weight. Progressions, regressions and hands on adjustments will be provided by our professional instructors when required. Leave this class feeling **strong and toned**.

## Meditation

The purpose of meditation is to **centre your mind**. 30 minutes to “practice” being with yourself in your own space. Guided compassionately by a teacher to support a grounding, a centring and an increased tolerance of any external noise. Leave this class feeling **clear minded and centred**.
